Green Campus Policy

Green Campus Policy

Shri Anand College Pathardi aspires to be a clean and green campus where environmentally friendly practises and education work hand in hand to promote sustainable and eco-friendly systems. The green campus allows the college to take the lead in redefining its green culture by promoting environmental virtues among students and employees.

The college follows 'Clean Campus, Healthy Campus' policy. In practise, it remains committed to the Green Protocol in accordance with the Swaccha Bharat Abhiyaan.

The college has consistently been striving to keep its campus clean and green with following objectives:

- To protect and conserve the environmental systems and resources on the campus
- To ensure the wise use of environmental resources in order to meet the needs and aspirations of present and future generations
- To incorporate environmental concerns into programmes and outreach activities
- To collaborate with all stakeholders and the local community to raise awareness and encourage the adoption of environmental best practises
- To continuously improve the efficient use of all resources, including energy and water
- To reduce consumption and waste production by recovering and recycling waste wherever possible
- To make the campus plastic free

● **Composition of Green Campus Committee:**

Sr. No	Name of the Member	Designation

4.	Dr. M. F. Shaikh	HoD, Chemistry	Member
5.	Dr. B. R. Ghorpade	Assistant Professor, Zoology	Member
6.	Mr. S. B. Kalokhe	Assistant Professor, Physics	Member
7.	Dr. B.V. Jagdale	Assistant Professor, Geography	Member

Policy

A clean and healthy environment promotes effective learning and creates a pleasant environment for students. The college aims to inculcate a motto “Clean Campus, Healthy Campus”.

Policy Statement:

i. Environmental Responsibility:

We pledge to comply with all applicable environmental laws and regulations and strive to exceed minimum requirements. Our institution will continuously seek opportunities to minimize our environmental footprint and promote sustainability in all operations.

ii. Waste Management:

Implement a comprehensive waste management system to reduce, reuse, and recycle materials across campus. Encourage the adoption of responsible waste disposal practices among students, faculty, and staff.

iii. Energy Conservation:

Embrace energy-efficient technologies and practices to reduce energy consumption across all facilities. Explore renewable energy sources and invest in sustainable energy solutions where feasible.

iv. Water Conservation:

Implement water-saving measures to conserve water resources, including the use of efficient fixtures and practices. Educate the college community on the importance of water conservation and encourage responsible water usage.

v. Sustainable Transportation:

Promote eco-friendly transportation options such as cycling, walking, and public transit.

vi. Biodiversity and Green Spaces:

Preserve and enhance green spaces on campus, fostering biodiversity by planting native species.

vii. Education and Engagement:

Offer educational programs, workshops, and events to raise awareness about sustainability and environmental issues. Encourage active involvement and collaboration among students, faculty, and staff in sustainability initiatives.

viii. Continuous Improvement:

Regularly assess and improve our sustainability efforts through monitoring, evaluation, and feedback mechanisms. Periodically review and update the Green Campus Policy to incorporate advancements in sustainable practices.

Our commitment to a green campus extends beyond policies; it is a collective endeavor that requires the dedication and participation of every member of our college community. By adhering to this Green Campus Policy, we aim to inspire a culture of sustainability and become leaders in environmental conservation.
