#### Means.....

Where women are worshiped i.e. respected, the deities live happily. On the other hand, where women are not respected, all work becomes futile, asserted Dr. Bathuvel Pagare.

International Women's Day was celebrated at Shree Anand College Pathardi. Dr. Pagare Sir, the President of the program, in his presidential address highlighted on "Role of Women in Society". Even yesterday the woman was struggling, today she seems to be struggling. But the nature of this conflict has changed. Today she struggles to get an education, get a job and survive in today's competitive age. Today's woman seems to be working in various fields. It will not be a lie to say that the sky is the limit. Right from the kitchen to space, all fields are open to her and she is successfully foraying into these fields. From Kalpana Chawla Sunita Williams to President Draupadi Murmu, many examples can be given. On this occasion, he hoped that all the students of his college should brighten their career by taking inspiration from his work.

Introduction of this program Dr. Jayashree Khedkar explained to the students the background of why March 8 is celebrated as International Women's Day all over the world. Human progress is incomplete without the empowerment of women. Today, International Women's Day is being celebrated

across the world, across India. Such events highlight the need for women empowerment. But its importance cannot be limited to the symbolism of a single day. There is an urgent need to change the mindset of the society for women empowerment. It is unfortunate that even after the elixir of independence we are still talking about ending the heinous practice of gender discrimination and female foeticide.

Renowned Gynecologist Dr. Nilesh Mhaske, Mother Hospital, Tisgaon and Dr. Manjusha Nagre, Nagre Hospital Pathology, was present as an expert guide. Guest Introduction Prof. Ashwini Thorat. Dr. Nilesh guided on women's health. It is necessary to take proper care at a young age. Nowadays changing diet, lifestyle is affecting motherhood. Uterine cancer is increasing at a high rate, which is a matter of concern. A vaccine is available in modern medical science. Dr. Nilesh is making a valuable contribution to create public awareness about it. Satisfactory answers to the questions asked by the students.
